

# libraryCreate

*Changing the world, one library at a time.*

# The compounding cost of the digital divide.

## 130M+

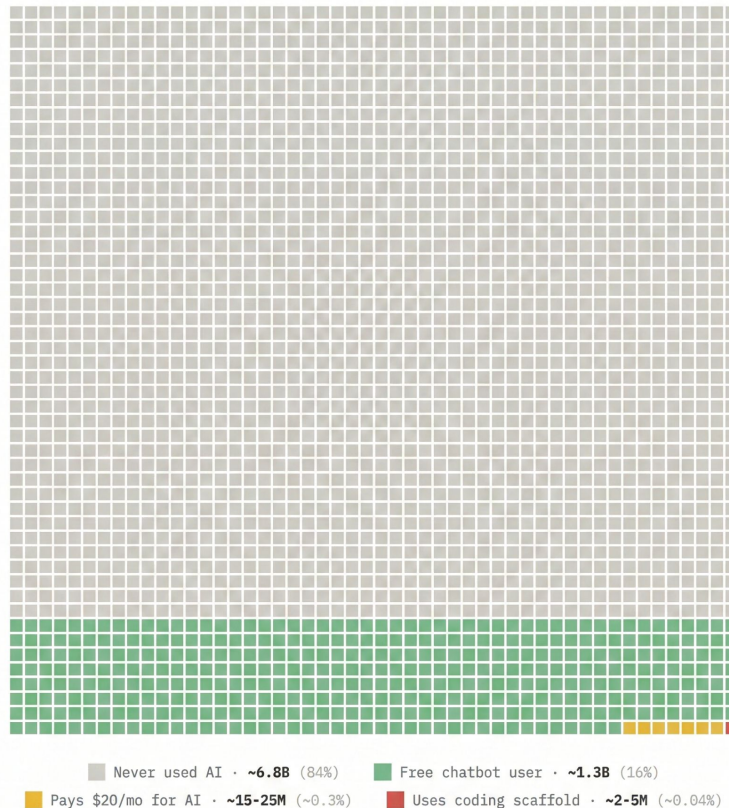

children worldwide lack access to basic reading materials.

## \$1.2T

low literacy costs the global economy \$1.2 trillion per year.

Children who read regularly earn up to **20% more as adults**. Without intervention the bottom 17% of the world living in poverty falls permanently behind.

84% of humanity (~6.8B people) has never interacted with AI.

## OUR MISSION

# Building Education Infrastructure for Tomorrow

libraryCreate is a 501(c)(3) nonprofit dedicated to building libraries and technology centers in under-resourced regions worldwide. We convert donation into permanent education infrastructure, ensuring every child has access to books and technology.

### Core Initiatives:

Education | Tech Literacy | Innovation | Infrastructure

## OUR IMPACT

# What We Have Accomplished

2

Libraries Built

500+

Students Reached

3,000+

Books Donated

R\$70,088

Raised out of R\$263K goal

## FUTURE OUTLOOK

# From Villages to Metro Cities

### BPO Outsourcing

Partner with global enterprises to establish BPO centers in our nodes, creating sustainable employment pipelines.

### Micro Financing

Launch programs enabling locals to start small businesses and create local economic ecosystems around our education centers.

### Urban Growth

Transform villages into economic hubs by creating the foundation for sustainable development in under-resourced regions.

Education creates opportunity. Opportunity creates employment. Employment creates cities.

## OUR NEXT LOCATION

# Pioneering Education in the Heart of the Amazon

### A Remote Frontier

Our next learning center will be built in a remote village near Lake Acajatuba near Manaus that is accessible only by water. This hub will bridge the digital divide for neighboring river settlements with educational and technological resources.

### Driven by Vision

Our inspiration came from when our teammates, Lalit and Zach, traveled to Brazil on a study abroad trip and saw the inequality in educational access. Our team is committed to providing to the children of the Amazon the same standards of excellence found in metro cities.

### Repeatable Excellence

By deploying Starlink and modern infrastructure, we are creating a scalable model for social impact that transforms remote villages into vibrant nodes of knowledge and global opportunity.

## STRATEGIC PARTNER

# libraryCreate x campusb

Campus b is a São Paulo based Brazilian international education company that designs customized faculty-led study programs and immersive learning experiences across Latin America for universities around the world.

### Volunteering Base

Campus B's partnership also supplies us with a volunteering wing across cities in Brazil. From US college students volunteering in libraries to other local educational nonprofits focused on the favelas, Campus B gives us our eyes and ears in Brazil

### Recurring Model

Campus B runs quarterly student trips to the Amazon and includes a \$100 per-student surcharge, which supports upkeep of the libraryCreate library. For example, at 20 students per trip, this generates about \$2,000 in quarterly recurring revenue.

### Deployment Partner

Campus B acts as our in-country intermediary in Brazil, helping facilitate local fund transfers and on-the-ground oversight while libraryCreate remains fully in control of fund allocation and use.

## FUNDING & ALLOCATION

# Current Round

**R\$70,088**

raised of R\$263,000 goal

28% of goal achieved

# Budget Allocation (2yrs)

## Building Construction

Site preparation, building structure, utilities

**R\$170k**

## Logistics, Transport, Emergencies

Transport, rentals, accommodation, meals

**R\$39k**

## Ongoing Operations

Local coordinators, maintenance expenses

**R\$30k**

## Tech, Books, Furnishing

Tablets, Starlink, hardware, desks and cabinets

**R\$24k**

## MILESTONES
